

Short Term Cycle Mechanic

Job Description

Term: 6 months (with the possibility to extend this and/or apply for full membership)

Wage: £8.15 starting wage (with the possibility for this to go up after 6 months)

Hours: 3-4 days a week 8.15am - 5.25pm (Mon, Tues, Thurs, Fri) with the possibility to work 5 shorter days. No weekend work.

NBRC is looking for a self motivated and enthusiastic bicycle mechanic to support our project. You should be reliable, experienced (either self taught or qualified to equivalent of Cytech level 3) and comfortable working on a variety of bicycles, especially low-end student bikes. As stated the term is for 6 months, with the opportunity to extend this and/or apply for full co-op membership if desired. The wage is £8.15 with the possibility for this to go up: we aim to pay people for what they put in fairly within our means and as a member run co-operative our wages are agreed by consensus.

Job Description

- Repair bicycles efficiently and effectively in a busy workshop environment
- Refurbish bicycles to a high standard
- Assess customer bicycles and price up for repairs/services
- Show people how to use the pumps etc. in the DIY area
- Use the till to make cash sales
- Offering advice to customers about repairs and products
- Excellent communication and team working skills

Starting Date: Mid January (flexible)

Benefits: 33% staff discount, use of the workshop to do your own repairs, potential to gain extra training and grow into the role (both in admin/managing a business and in mechanics), opportunity to learn about the co-operative model and possibility to become a full co-op member.
